

**Product Name :**  
Energy Hybrid, Solar and Wind

**Product Code :**  
RENV0023

**Description :**

Energy Hybrid, Solar and Wind

**Technical Specification :**

This training device includes modules such as solar power generation devices, photovoltaic panel power generation devices, inverters, and light-emitting controllers. Through related experiments, you can study the principles of solar and wind power generation, and cultivate students' corresponding knowledge and skills. It is suitable for vocational and vocational colleges, Secondary vocational school and technical school related professional teaching and skills assessment.
