

Product Name :
Transparent Motor Trainer**Product Code :**
ELTC0018**Description :**

Transparent Motor Trainer

Technical Specification :

Supplies many types of transparent motor trainer, such as Mine explosion-proof motors model, DC generator model, three phases winding motor model, single phase speed change motor module, cup type electronic servo AC motor, rotating magnetic field generated and speed change model etc.

Containing the following types of electrical motor experiment equipment

1. Three-phase wound rotor asynchronous motor model
2. three-phase squirrel-cage motor model
3. Single-phase asynchronous squirrel cage motor model
4. DC servo-motor model
5. single-phase asynchronous motor model
6. Three phases synchronous motor model
7. Three phase step motor model
8. DC generator model

9. Three phases AC generator model

10. Mine explosion-proof motor

11. Permanent magnet generator model Output 6.3V
