Motor Control And Electrical Drive Workbench**Product Code :**  
ELTC0029**Description :**

Motor Control And Electrical Drive Workbench

**Technical Specification :**

This training workbench include various motor application circuit, through experiment, students will be familiar with motor features, mater control principle and control method. It stress on hand on operation ability, and training practice. It's suitable for college, technical schools, university, training institute.

(1) Training workbench use aluminum column structure frame, it include meter box and power box to test and measure technical parameter, it is easy to use and it is not easy to be broken.

(2) Equipped with motors, students can make combination, and finish many training contents.

(3) Training workbench has high safety system.

(1) Input power: three, five wires, 380V $\pm$ 10% 50Hz

(2) Dimension: 1600mm $\times$ 800mm $\times$ 1750mm

(3) Whole capacity: ?2.0KVA

(4) Weight: ?300kg

(5) Work condition:

Environment temperature:-10??+40?, Relative humidity: ?85%(25?)
