

Product Name :
Electromagnetism And Magnetic Circuit**Product Code :**
ELTC0056**Description :**

Electromagnetism And Magnetic Circuit

Technical Specification :**1 Introduction**

The training device through the relevant experiment, can be familiar with magnetic material of the surface magnetic field distribution, master the principle of hall effect, trains the student to the corresponding knowledge and skills, suits, higher vocational colleges, secondary vocational schools and vocational school the teaching of related professional schools.

2 Technical data

(1) input power: dc power supply 0-5v + 10% 60Hz.

(2) weight: < 25kg.

(3) working conditions: temperature - 10 ? ~ + 40 ?

Relative humidity < 85% (25 ?)
