

**Product Name :**  
Switch Gear Protection Trainer

**Product Code :**  
ELTC0090

**Description :**

Switch Gear Protection Trainer

**Technical Specification :**

Voltage / over voltage protection relay Excitation voltage: 180-240 V, Input voltage (Under/over range): 100-300V Adjustable Current handling capacity: 0-5 A Frequency: 45-60 Hz. All terminals are on front plate. Use for educational experiment purpose. Under current / over current protection relay with auto re- closure Excitation voltage: 180-240 V Under current / over current range: 0-10 A Adjustable Voltage handling capacity: 150-300 V Frequency: 45-60 Hz, All terminals are on front plate. Use for educational experiment purpose. Under frequency / over • frequency protection relay Excitation voltage: 180-240 V Under frequency / over frequency range: 35-60 Hz Adjustable Voltage handling capacity: 150-300 V

Current handling capacity: 0-5 A
