

Product Name :
Level Measuring Bench**Product Code :**
ELTC0111**Description :**

Level Measuring Bench

Technical Specification :

The Level/Flow Process Trainer is a single loop system allowing the study of the principles of process control, using liquid level and flow rates as the measured process variables. The system is a completely self-contained, low pressure flowing water circuit supported on a bench top mounted panel, making it suitable for individual student work or for group demonstrations.
