

Product Name :
Flow Measuring Bench**Product Code :**
ELTC0114**Description :**

Flow Measuring Bench

Technical Specification :

The Level/Flow Process Trainer is a single loop system allowing the study of the principles of process control, using liquid level and flow rates as the measured process variables. The system is a completely self-contained, low pressure flowing water circuit supported on a benchtopmounted panel, making it suitable for individual student work or for group demonstrations.
