Product Name :	Product Code :
Microcontroller Trainer	ELTC0145

Description :

Microcontroller Trainer

Technical Specification :

Meet the following requirements

MCU 8051 training box (N.B 8051 is the equipment standard, not the model

The device is a single chip microcomputer training box based on 8 bit 8051 single chip microcomputer, widely used for training engineers to develop

RD2/89C61x2 CPU operating at 11:05 92mhz
