Product Name : Rail Control Circuit Training Console	**Product Code :** ELTC0179

Description :

Rail Control Circuit Training Console

Technical Specification :

This product selection AX series safety relays for optimum design, in view of the Siemens S700K type turn point machine characteristics, realized S700K speed the construction of the rail circuit training, joint the actual, the application of the flexible, high reliability, is the rail transit kind professional training for electrical device of choice.
