

**Product Name :**  
Modular Industrial PLC

**Product Code :**  
ELTC0192

**Description :**

Modular Industrial PLC

**Technical Specification :**

The training device includes Siemens 1200PLC, touch screen, power module, button module, indicator module and relay module. Through related experiments, students can be familiarize with the basic use and programming methods of S7-1200 PLC, and the use of programming software. Cultivate students' corresponding knowledge and skills, suitable for higher vocational, high school, secondary vocational schools and technical and vocational schools related teaching and skills training assessment.

**1.2 Features**

- (1) The training frame adopts aluminum profile column frame structure, measuring instrument and training power supply built-in integrated installation, training circuit and device are combined by hanging box, each unit is flexible, it's easy to use and not easy to damage.
- (2) The experimental circuit and device are fully equipped and can be used in combination to complete the training content of various courses.
- (3) The training platform has a good security protection system.
