Product Name : Industrial PLC Unit Product Manual	**Product Code :** ELTC0215

Description :

Industrial PLC Unit Product Manual

Technical Specification :

This training device is Siemens S7-1200CPU module. Through relevant experiments, you can be familiar with the basic use and programming methods of S7-1200 PLC, the use of programming software, etc . Cultivate the corresponding knowledge and skills of students, suitable for teaching and skills training and assessment of related majors in vocational schools, vocational schools, secondary vocational schools and technical schools.

1.2 Features1

) All the input and output terminals of the PLC module are led out to the panel through the transfer terminal, and connected with the 2mm safety electrical cable.

(2) The PLC module selects Siemens PLC, provides digital input 8 in 14 output, analog input 6 in 2 output, supports RS232 and RS485 communication.

(3) The module is equipped with a DC 0-30V voltmeter.

(4) Equipped with 2 sets of analog DC0-10 output.

2. Performance parameters

(1) Input power: single-phase three-wire system 220V ± 10% 50Hz

(2) Dimensions: 297mm ✕ 230mm ✕ 80mm

(3) Total capacity: <500VA

(4) Weight: <100kg
