

Product Name :Copper Sulfate CuSO₄**Product Code :**

SCHOOLSMD1070

ALTEC™**Description :**Copper Sulfate CuSO₄**Technical Specification :**

An oxidizing agent or oxidant and is reduced in a spontaneous chemical (redox) reaction decreasing its oxidation state with metals above it, like zinc, in the Activity Series of Metals.

A substrate in Flame test to visually identify copper or its ion based on the characteristic color it emits on the Bunsen flame.

Oxidize the other reactant of a spontaneous redox reaction by gaining electrons reducing its oxidation state with metals above it, like zinc, in the Activity Series of Metals, resulting in copper in the free state and the salt of the metal being displaced.

Copper sulfate emits green color on the Bunsen flame.

Form : Crystalline solid

Color : Blue

Odor : Odorless

Chemical formula : CuSO_4

Mass bottle : 100 g.

Tender product as per DEPED Guidelines.
