

Product Name :
Potassium Chloride

Product Code :
SCHOOLSMD1075

A large, light gray watermark of the ALTEC logo is centered in the main content area of the page.

Description :

Potassium Chloride

Technical Specification :

This is used as a substrate in Flame test to visually identify a specific element or an unknown metalloid ion based on the characteristic color it emits on the Bunsen flame.

a) a substrate in Flame test to visually identify potassium element, or its ion based on the characteristic color it emits on the Bunsen flame.

Potassium chloride emits a light lilac color which indicates the presence of the potassium ion

b) as a catalyst and to undergo a spontaneous chemical reaction in the decomposition of hydrogen peroxide to produce bubbles of oxygen gas and

water to demonstrate the effect of catalyst on the rate of chemical reaction

Form: Crystalline solid

Color: White

Chemical formula : KCl

Mass per bottle: 100 g.

Tender product as per DEPED Guidelines.
