

Product Name :

Manometer Open U-tube with Nakamura-type Water Pressure Apparatus

Product Code :

SCHOOLSMD1085

**Description :**

Manometer Open U-tube with Nakamura-type Water Pressure Apparatus

Technical Specification :

This is used to measure pressure difference of fluids.

Open U-tube glass manometer tube with a 50cm arm with funnel top on one arm and a 2.5 cm rifed tip on another arm for easy connection with silicone-rubber tubing, glass wall 1mm thickness, 4-6 mm inner diameter

A millimeter scale is fitted between the arms of the tube.

U-tube is mounted on a wooden board, fixed on a wooden stand for vertical U tube is mounted on a wooden board, fixed on a wooden stand

for vertical mounting.

Includes SIMPLE WATER PRESSURE APPARATUS (Nakamura type) -its body can be made to rotate around a rigid tube.

The rigid tube is L-bent to be inserted into the pressure apparatus, so that the pressure apparatus can be rotated -with 10 pcs spare diaphragms per set.

Includes 1 meter silicone-rubber tubing for interconnecting U-Tube manometer and the simple water pressure apparatus. Tender product as per DEPED Guidelines.
