

Product Name :
Double Burette Clamp**Product Code :**
SCHOOLSMD1137**Description :**

Double Burette Clamp

Technical Specification :

This is used to hold and secure two burettes simultaneously on a stand, so that the burettes are fixed and more convenient to perform acid-base titration experiment to determine concentration of solutions.

Shape : Double Y-shaped or butterfly-shaped items which have spring action clamps.

Material of body: Die cast aluminum with chemical resistant white enamel finish, with the following dimensions:

Length range : 245-254 mm

Width range : 120-127 mm

Mounting hole diameter : 15 mm

Color of body: White

Material of sleeves/jaws/grips : Vinyl or rubber for excellent grip

Color of sleeves/jaws/grips: Blue/red/black

Distance between sleeves/jaws/grips : 85 mm (min)

Scope of application: 15- 36 mm

With 4 spring action clamps, 2 on each opening

With two separate adjusting knobs or squeeze clamping mechanism

Color of adjusting knobs : White

Mounts directly to standard support rod with built in hook connector.

The dual metal burette clamp supports burettes from 10 mL (10 cc) to 100 mL (100 cc).

They can be attached to support stand rods from 5/16", 1/2" up to ~16 mm to 17mm diameter. Tender product as per DEPED Guidelines.
