

Product Name :

Globe Celestial

Product Code :

SCHOOLSMD1174

A large, light gray watermark of the ALTEC logo is centered in the main content area of the page.**Description :**

Globe Celestial

Technical Specification :

This is used to illustrate the relative locations of observable celestial objects with respect to the earth in the celestial sphere (celestial sphere is what we commonly called sky)

Shows the position of stars for any time and place. A2A Ø 4 inches World Globe and Sun are mounted within a Ø 12 inches transparent Star Globe

Each rotates independently. The star map shows principal stars to the 5th magnitude, names of major stars and constellations, and includes the ecliptic, right ascension and declination scale.

Must include Names of Months and Days Scales around the globe for easy reference of constellation

The horizon mounting allows the Globe to be set for any location.

Globe is supported on a cradle base made of hard/tough plastic. Tender product as per DEPED Guidelines.
