

Product Name :
Real-Time Quantitative PCR

Product Code :
HOSPITALLAB70045

Description :

Real-Time Quantitative PCR India China

Technical Specification :

Up to 6 fluorescence detection channels meet the requirement of multiplex PCR

Effectively reduce multi-color crosstalk and edge effect

New optical scanning detection system--High sensitivity /resolution

Innovative scanning method and time-resolved signal separation technology--High accuracy

Unique edge temperature compensation technology

Unique design, user-friendly operating software

One-stop process and solution

Classic examples
