

Product Name :
Medical Lab Water-Jacket Cheap Cell CO2 Incubator**Product Code :**
HOSPITALLAB70053**Description :**

Medical Lab Water-Jacket Cheap Cell CO2 Incubator

Technical Specification :

Water-jacket or air-jacket heating.

High quality stainless steel working chamber.

Forced convection for an even temperature and CO2 concentration.

Convection and heating will be automatically off to prevent contamination when door is opened.

Temperature adopts microcomputer data analysis and P.I.D controller ,which is accurate and interference-free.

(For water-jacket type, there are 3 sensors separately for work room temperature, water temperature and door temperature. For air-jacket, there are 2 sensors for workroom temperature and door temperature.)

Touch button, and digital display with LED indication.

Self protection for over-temperature, water-shortage and gas-shortage.
