

Product Name :
Medical Climatic Temperature Man-Made Climate Incubator**Product Code :**
MEDICALLAB710002**Description :**

Medical Climatic Temperature Man-Made Climate Incubator India China

Technical Specification :

Stainless steel chamber, easy to clean.

Shelves adjustable easily.

Touch-button with flexible operation.

Magnetic door sealing.

The fluorescent lights are equipped at both side of the incubator.

The special glasses with good heat insulating ability and light transmittance are installed between the fluorescent lights and the chamber, and on the inner door, which reduces the heat transmission into the chamber and ensures the desired light intensity.

Forced convection for even temperature.

Freon-free refrigerant, eco-friendly and highly efficient.
