

**Product Name :**  
Medical Multi-Function Plant Tissue Incubator**Product Code :**  
MEDICALLAB710005**Description :**

Medical Multi-Function Plant Tissue Incubator India China

**Technical Specification :**

This product is suitable for the incubation of mammal cells, plant tissue, bacteria, fungi and virus. It can meet the requirement of molecular biology research in various incubation.

The modularization of different control units such as temperature, CO<sub>2</sub> concentration and shaking controller can meet user's various requirements. The user can control the on or off of different functional modules to realize different experiment conditions.

A: Electrothermal thermostatic incubator.

B: A plus CO<sub>2</sub> concentration control equals CO<sub>2</sub> Cell Incubator.

C: A plus shaking equals thermostatic shaking incubator

D: A plus CO<sub>2</sub> concentration control plus shaking equals multifunctional Incubator (Electrothermal type)

E: A plus CO<sub>2</sub> concentration control plus shaking plus refrigerant makes an multifunctional Incubator (Refrigerant type)
