

Product Name :

Hospital Hot Sale Multi-Channel Fia Quantitative Poct Immunoassay System

Product Code :

MEDICALLAB7200005

**Description :**

Hospital Hot Sale Multi-Channel Fia Quantitative Poct Immunoassay System

Technical Specification :

Infection: hsCRP+CRP, PCT

Cardiac Markers: NT-proBNP, CK-MB, cTnI, Myo, 2 In 1(CK-MB/cTnI), 3 In 1(CK-MB/cTnI/Myo)

Diabetes: HbA1c

Coagulation: D-Dimer

Advantages of Testing Platform

Support 12 multiple tests at the same time

Twelve testing channels, with an actual velocity measurement of 120T

Scan and identify the testing items as well as the reagent strips come out automatically after the finished testing.

Multiple testing items, make medical examination efficient and rapid.

The data can be uploaded to LIS and printed automatically
