

Product Name :
Medical Hospital Equipment Portable Auto Dry
Biochemistry Analyzer**Product Code :**
PHARMALAB7300003**Description :**

Medical Hospital Equipment Portable Auto Dry Biochemistry Analyzer India China

Technical Specification :

Sample Type Anti-coagulation whole blood, serum, plasma

Sample Volume 90-120 ?l

Bar Code QR Code

Testing Time 12 minutes/sample

Testing Principle Absorption spectroscopy,transmission turbidimetry

Testing Method End point, kinetic, fixed time, turbidimetry etc

Temperature 37±0.3°C

Absorbance 0-3.0Abs

Resolution 0.001 Abs

Cross Contamination 0

QC & Calibrate IQC Intelligent QC

Working Condition Temperature:10-30°C Humidity: 30%-70%

Light Source 120v/20w, halogen tungsten lamp's lifespan is over 2500 hours

Power Supply AC220V, 50Hz

Power Rating 120VA

Optical System

After the filter spectral, 8 wavelength synchronous detection: 340,405,450,505,546,600,630,850nm

Display

Android 7.0 inch 800*480, multi-point capacitive touch screen, multilingual choice

Storage 500,000 results

Printer Built-in thermal printer

Connectors 4 USB ports, 1 LAN port
