

Product Name :
Fully Automatic Laboratory Medical Elisa Microplate Reader**Product Code :**
PHARMALAB730022**Description :**

Fully Automatic Laboratory Medical Elisa Microplate Reader India China

Technical Specification :

Pipetting Spec

Number of Pipetting channels 1

Tips 300ul/800ul. Disposable plastic tips, non conductive, low cost, Liquid level, clot, empty tube detection function

Tips rack capacity 192tips (2positions, each can hold 96tips)

Pipetting precision(CV) and accuracy <0.75%, ±1%@100ul

Liquid level monitoring Liquid level monitoring,clot monitoring and empty tube monitoring

Sample/control Positions 8x12=96 samples(standard tube diameter 13mm,other diameters on request)

Reagent positions bottles/vials(16+7+5)in custom rack

Plate positions one plate on plate drive + one standard or deep well plate predilution

Incubation positions 1(in light protected position)

Temperature range RT-60°C adjustable at an increment of 0.1°C

Washer 1x8 pins

Wash buffer capacity 3pc Low-buffer alarm function

Measurement module

Dynamic range 0-4.0OD

Spectral range 340~750nm

Filter shots 405,450,492,630nm+2 empty filter positions

Reading channels 8-channel

Reading modes Single,dual

Barcode scanner optional

Software Intelligent,easily programmed
