Description : Medical Lab Auto Blood Bag Tube Sealer India China Technical Specification : Controlled by MCU, voltage can be adjusted automatically No Haemolysis, adopt imported key components to ensure the equipment high quality. The tube sealer foot has suckers, suitable for use in blood collecting cehicle Automatic heat sealing tightly. Sealed tube can be easily separated by pulling the sealing section by both side. Seals blood bag tubing of up to 6mm dia. Automatic start-up after insertion of tubing Seals within 2 seconds. Lifespan of the electric tube: about 1000hours.	eription : cal Lab Auto Blood Bag Tube Sealer India China nical Specification : rolled by MCU, voltage can be adjusted automatically aemolysis, adopt imported key components to ensure the equ ube sealer foot has suckers, suitable for use in blood collectin matic heat sealing tightly. Sealed tube can be easily separated	7
