

Product Name :
Precision Balance 820g**Product Code :**
ELCBLC1020007**Description :**

Precision Balance, 820g

Technical Specification :

Innovative design enables a reduction of the balances footprint, so it occupies less space but retains the highest level of performance.

A single piece of extruded aluminum forms the balance base.

The aluminum provides superior thermal transfer for a more regulated temperature, while the solid core is more rigid, offering greater stability and enabling highly repeatable results.

The internal mechanism is fabricated using hardened materials, helping the Precision Balance tolerate rigorous laboratory use.

Features :

Backlit LCD display.

Sealed keypad.

Colour coded keys.

Level indicator with adjustable levelling feet.

Removable draft shield supplied on 0.001g readabilities.

Robust metal housing.

External calibration.

Pan lifter to easily remove sample.

Technical Specifications :

Pan size: 120mm

Capacity: 820g

Readability: 0.001g

Draft shield: Round 180mm x 110mm

Dimension: 220 x 340 x 344mm (wxdxh)

Applications :

Weighing

Parts counting

Percentage weighing

Animal / dynamic weighing

Density determination
