

**Product Name :**

Robot Kit

**Product Code :**

ROBT10500005

**Description :**

Robot Kit

**Technical Specification :**

A compact, sturdy robot that can be programmed in 3 different ways, making it suitable for all ages.

It is your new robot buddy who will teach you about electronics, programming and robotics in a fun and engaging way.

He's equipped with all the sensors, outputs and motors needed to introduce you to the amazing world of robotics.

Once you've learned all about abilities, sensors and controls you can move on to programming him.

Requires 4xAAA batteries (not included).

**FOR BEGINNERS :**

It has a barcode scanner to activate one of six inbuilt programs, including line following, clap controlled driving and obstacle avoidance.

**FOR INTERMEDIATE :**

Blocks is a drag-and-drop block based programming language and can run in a browser.

Ware is the next level up from Blocks, with the simplicity of drag-and-drop & more features.

FOR ADVANCED :

Py is the hardcore programming option for those who want to take their robot to the limit.
