

**Product Name :**

Rover

**Product Code :**

ROBT1050007

**Description :**

Rover

**Technical Specification :**

Programming Rover to move is a fun way to explore topics and concepts in middle grades and high school, promote collaborative problem-solving, and spark lively conversations.

A programmable robotic vehicle that puts math in motion to encourage exploration of key concepts.

The educational robotic vehicle that students program with their graphing calculators to explore topics in math, science, coding and STEM.

Motion adds a new dimension of engagement in math, science and coding.
