

Product Name :
Blood Testing Kit

Product Code :
MICBOL10800007

Description :

Blood Testing Kit

Technical Specification :

This kit lets students practice ABO blood typing while avoiding the risks associated with real blood.

The clumping of simulated blood cells by corresponding simulated antibodies is done through chemical precipitation.

Students observe the antigen-antibody relations of artificial bloods and sera.

No human or animal blood or blood products are used because the reactions are based on chemical solubility.

Observe agglutination and typing of A, B, AB and O blood groups.

Perform blood typing without human blood.

This "health-risk free" kit comes complete for 60 students.
