

Product Name :
Finger Tip Pulse Oximeter**Product Code :**
HALTH1090007**Description :**

Finger Tip Pulse Oximeter

Technical Specification :

Economical, easy to use, and compact finger-tip pulse oximeter.

The Finger Tip Pulse Oximeter is equipped with a function switch, through which the oximeter can be automatically powered off when not in use for more than 5 seconds.

Fully self contained and compact, the finger tip pulse oximeter is the perfect choice for any health care practitioner.

Simply attach the lightweight unit to the finger to obtain instant SPO2, pulse and Pleth Wave readings with the high visibility four-way OLED double colour display.

Features & Benefits :

Operation of the product is simple, low power consumption

Integrated with SpO2 probe and processing display module

Small in volume, light in weight and convenient in carrying

Low-voltage indication: low-voltage indicator appears before working abnormally which is due to low-voltage

Automatically power off function: when the device is under the state of measuring interface, it will automatically power off within 5 seconds if the finger falls out of probe

Display format can be saved after power off

SpO2 value display

Pulse rate value display, bar graph display

Pulse waveform display

The display mode can be changed
