

Product Name :
Lung Volume Bag**Product Code :**
HALTH10900015**Description :**

Lung Volume Bag

Technical Specification :

This kit contains four lung volume bags and mouthpieces to use when studying lung capacity with a group of students.

The lung volume kit gives students the opportunity to understand their own physiology more thoroughly.

Lung capacity is a significant indicator of physical fitness.

Includes: 4x durable plastic bag calibrated to 6 litres, mouthpieces, mouthpiece holders and instructions.
