

Product Name :

Bench UV Lamp

Product Code :

UVLMP0002

Description :

Bench UV Lamp

Technical Specification :

It is a low-pressure mercury lamp. The lamp tube is made of pure quartz glass, which is intensified by low-pressure mercury vapor ($<10^{-2}$ Pa) and emits UV rays with a wavelength of 253.7nm and 185nm. Quartz glass has a high transmittance of UV rays, reaching more than 90%, and has sufficient strength. Energy UVC can be used for disinfection and sterilization in various fields.

Using quartz glass UV lamp tube, high transmittance, better sterilization and disinfection effect.

UV sterilization and disinfection, remove formaldehyde and odor.

Service life of the lamp is 8000 hours.

Rated Voltage: 36V

Rated Power: 38W

Application Area: 30~40?

Timing Range: Optional 15mins/30mins/60mins

Light Source Type: Quartz UV light source

Fixed Way: Base

Control Mode: remote control

Power Supply: AC110V/220V \pm 10%, 50/60Hz
