

Product Name :

Urine Analyzer

Product Code :

AUTOUN0001

**Description :**

Urine Analyzer

Technical Specification :

LCD monitor.

Standard RS232 serial interface.

Fully auto calibration.

Super LCD monitor.

The data can be saved automatically.

Date and patient number can be input.

The color and limpidness can be input.

Single test and continuous test are available.

Adopt luminescence source with high brightness to minimize interference of the environmental light.

Wave length: 510-650nm

Throughput: 120 test/hr

Storage: 1000 patient data

Display: 240x64mm LCD monitor

Print: 57mm thermal printer

Interface: Standard RS232 serial interface

Calibration: Fully automatic calibration

Condition Temperature: 15-35?, humidity:10-85%
