Product Name :	**Product Code :**
Auto Urine Analyzer for Lab	AUTOUN0003

Description :

Auto Urine Analyzer for Lab

Technical Specification :

14 Items application Scope

60-120 test/hr

LCD display

525nm-660nm wavelength

RS232 standard interface.

Two modes of sole test and continuous test.

Can keep a recond of 1000 test results automatically.

The maximum checking quantity is 120 specimens per hour .

Automatic recond the corlur and clearty of the urine specimens.

Putting in the date and the medical recond number for consulting.

Selecting the printer format of either "+/-"system or figure system.

Measurement Principle: Ultra high brightness cold light source/Reflection measurement principle

Application Scope: 14 Items

Test Speed: 60-120 test/hr

Display: LCD display

Wavelength: 525nm-660nm

Working Condition: Temperature 5?~40?,Humidity<85%

Data Storage: 2000 patient data

Interface: RS232 standard interface

Print Mode: Built-in thermal printer

Fault Diagnosis: Instrument self-test and wok in with standard gray level detection

Leakage Urine Function: Available, avoid cross infection

Power Supply: AC110/220V ± 10%, 60/50Hz
