

Product Name :
Auto Coagulation Analyzer**Product Code :**
COANL002**Description :**

Auto Coagulation Analyzer

Technical Specification :

Full-automatic blood coagulation analyzer perform tests by coagulation and immunodeficient method, mainly used in emergency test of medium to high-end customers, also better meets the demand for automatic test of small customers.

Features:

Fully automatic, improve working efficiency.

Complete diagnosis data for clinic,LIS system available, easy to manage.

Fully automatic sampling and testing system, ensure the consistency and accuracy of the test results.

Refrigerated reagent positions, extend the shelf life of the reagent.

Analysis Method: Coagulation method

Analysis Items: PT, APTT, TT, FIB

Throughput: 140

Sample Position: 5

Tilt Reagent Position: 6

Interchangeable Reagent Position: /

Sample Probe: Liquid level sensor and constant heating function

Calibration: Automatic or manual calibration

Lighting: LED

Alarm: Abnormal test results alarm, insufficient cleaning fluid alarm, waste liquid overflow alarm

STAT Function: Emergency sample available

Software: Windows 7/8/10 or above, LIS system available

Power Supply: 110/220V±10%, 60/50Hz
