MED-LB0001**Description :**

Needle and Syringe Destroyer Electric Plastic Body

Technical Specification :

Needle Burner and Syringe Destroyer is a must have equipment for all hospitals, clinics, medical personnel.

Higher Power for quick burning of needle.

Additional hole for syringe cutting which doubles the blade life .

Improved cutter handle design for better grip and ease of use.

It easily and safely destroys used needles and syringe hence avoiding risk of injection and re-use.

Helps eliminate accidental needle prick injuries during re-capping.

Features:

Light, Portable and Compact design.

Used needle, when inserted in destroyer, is burned in 2 seconds.

The syringe hub can be cut off easily by a sharp blade by pulling the handle.

Low Power Consumption.

Removable discharge tray for easy disposal of needle ash and syringe hubs.

Elegant Looks.

Works on 220V/50Hz electric supply.

Very Economical.
