

Product Name :
Muffle Furnace Laboratory Use**Product Code :**
CLNC-LAB0025**Description :**

Muffle Furnace Laboratory Use

Technical Specification :

Heating Elements are made of Canthal wire.

Light weight with ceramic fibre wool installation in place of refractory bricks.

Maximum temperature 1000° C Fitted with Sunvic energy regulator, CI/AL thermocouple with pyrometer.

Working temperature 940° C.

Special high temperature alloy which ensure uniform distribution of heat.

Muffle size

250x125x125mm

300x200x200mm

225x100x100mm

300x125x125mm

300x150x150mm
