

Product Name :

Tube Rubber

Product Code :

NTH0034

**Description :**

Tube Rubber

Technical Specification :

Rubber (or Silicone) tube, 8mm ID, 11 mm OD, for use with laboratory vacuum filtration.

For Microbiological water testing .

The tube is used for connecting a Pistol Grip Vacuum Pump or a 100ml standard Syringe with either a filter support Manifold or a Buchner type filtration flask with side-arm (tabulation), all with connection OD 8mm.

The tube shall be rigid enough to not collapse when pumping with a laboratory pistol grip hand pump.
