

Product Name :
Water Conditioning Laboratory Portable**Product Code :**
NTH0037**Description :**

Water Conditioning Laboratory Portable

Technical Specification :

Comprehensive portable water conditioning laboratory including a data logging spectrophotometer, one portable pH meter, a conductivity/TDS meter, a digital titrator, complete step-by-step instructions and pre-measured reagents for 23 common water quality parameters.

The 23 parameters that could be monitored include:

Alkalinity, Calcium, Chloride, Free and Total Chlorine, Copper, Dissolved Oxygen, Fluoride, Hardness, Total Iron, Lead, Manganese-PAN, Nitrogen, Nitrate, Ozone, Reactive Phosphorus, Sulfate, Sulfite, Tannin-Lignin and Zinc.

Address: 75, Lajpat Nagar-IV, New Delhi-110024 **Phone:** +91-9311469084
