

Product Name :
Chlorine Test Colour Comparator**Product Code :**
NTH0044**Description :**

Chlorine Test Colour Comparator

Technical Specification :

The comparator is a compact, handy colorimetric unit which is suitable both for mobile and stationary analysis work. It can be supplied with a generous number of different color scales, and provides the basis for a comprehensive, easy-to-use colorimetric analysis system.

This Comparator kit is supplied with necessary color discs, reagents etc. for the parameters Chlorine and ph.

Disc measuring ranges(approx.):

for Chlorine from 0 to 4.0 mg/l

for pH from 6.5 to 8.4
