

Product Name :
Electrical Submersible Pump**Product Code :**
PRUP0006**Description :**

Electrical Submersible Pump

Technical Specification :

The motor is expected to be of maximum 7.5 kW.

The embedded stator winding in the submersible motor is hermetically enclosed in stainless steel.

Enclosure class IP 58. Built-in protection device dry running, including level relay electrodes.

Complete Electrical submersible borehole pump, for pumping non-aggressive water without solid particles, all materials approved for use with drinking water.

The pump is provided with a priming screw, top non-return valve, bottom inlet strainer and water lubricated bearings.

The standard pump is directly coupled and equipped with a 3-phase submersible motor, suitable for power supply of 380 V/400 V - 50 Hz - 3-phase.

Pump size: The pump must be able to fit and work correctly in borehole casing of not more than 6 inches (150mm inside diameter).

Complete with motor cable.
