

Product Name :
ELISA Reader 8 Channel**Product Code :**
CLC-LAB0022**Description :**

ELISA Reader 8 Channel

Technical Specification :

Extended wavelength range: 380-900nm

Absorbance range: 0.001-4.000 OD

Platform: bench-top, open, automatic system.

Endpoint and kinetic assay modes.

50 user definable assay protocols.

Storage and recall of last 10 micro-plate results.

Automatic and manual plate mapping of assay.

Accommodates all common 96-well microplates.

Eight measuring plus one reference photo-detector.

Panel assay for up to 8-panel assays in a single run.

Minimum 15 formulas per assay. Built-in shaking.

On-board qualitative & quantitative data reduction software.

Single, dual & multi wavelength endpoint measuring modes.

Reporting of assay results in plate matrix and table formats or both.

Power requirements: 220V/50Hz, with voltage surge protection.
