

Product Name :
Distillation Unit 2 L-h**Product Code :**
CLC-LAB0035**Description :**

Distillation Unit 2 L-h

Technical Specification :

Automatic water purification system.

Free-standing or wall mount.

Tank capacity: 4L(approx.)

Output conductivity: 2 uS/cm, at 25C(approx.)

Thermostatic control and overheat protection.

Thermostatic low water cut off protects the heating element.

Power Supply: 230V/50Hz, with voltage surge protection.

Operates from raw potable feed water, 3 bar to 7 bar, 4C to 35C.

Unit indicates at least, power on/off, standby and/or process, tank level.
