

Product Name :
Ultra-low Temperature Freezer 256 Liter

Product Code :
REF-COLD-0025

Description :

Ultra-low Temperature Freezer 256 Liter

Technical Specification :

Ultra-low temperature Freezer

Cabinet Type: Upright

Volume Category: ? 80 <300L

Storage temperature: up to-86°C

Adjustable cabinet temperature set point -40C to -86C

Power requirement: 220-240V/50Hz and upon request 110V/60Hz

Operating ambient temperature: +10 °C - +27°C (Moderate zone)

Technical Specifications:-

Temperature control

Password protected.

Controller, fully configurable through the keyboard.

Adjustable in the range of -40°C to -86°C settable in 1°C increment.

With Temperature Graph, Datalogging and 48 hours of battery backup for Controller in the event of a power outage.

With USB key to extract logged data.

Alarm features: High/Low temperature alarm, Open Door Alarm, Sensor Failure Alarm, Power Failure Alarm.
