

Product Name :
Water Filter Candle Type**Product Code :**
WATER-SAN0001**Description :**

Water Filter Candle Type

Technical Specification :

Portable, compact water filter suitable for gravity flow purification and partial disinfection of drinking water with output of up to 80 liters per day (4 liters per hour).

When using cloudy/murky raw water the output may be as low as 10 liters per day.

The body of the unit is of robust construction manufactured in 304 grade polished stainless steel and fitted with an outlet tap.

The filter is fitted with 4 filter elements having the following specifications:

The elements are silver impregnated ceramic.

The external dimensions of each element are minimum 178 mm (7") in length and 50 mm (2") in diameter,

The elements are cleanable at least 100 times with a soft brush.

The upper one includes the 4 filter elements (candles) and the lid, and the lower has the water tap.

The filter consists of two sections.

The two sections are assembled together using a rubber anti-slip ring.

The two filter sections could be telescoped for shipping.
