

Product Name :
Bucket with Lid and Cap**Product Code :**
WATER-SAN0004**Description :**

Bucket with Lid and Cap

Technical Specification :

Bucket designed solely for transport and storage of drinking water, made of food grade virgin HDPE (High Density Polyethylene)/virgin LDPE (Low Density Polyethylene)

According to equivalent corresponding standard, tough durable UV-resistant that will not deteriorate in harsh sunlight, and safe for food and drinking water storage.

The bucket capacity is 14 litres min.

Height 300 mm

Top diameter 300/310 mm $\pm 5\%$,

Bottom diameter 240 mm $\pm 5\%$.

Indicated dimensions are approximate.

The walls must have a smooth gloss finish and meet the bottom of the bucket with a curved inside surface to prevent dirt and bacteria accumulation and to facilitate cleaning.

The top is reinforced to prevent ovaling.

The bottom must be smooth and spike free for improved comfort when carried on the head.

This bucket has a very tight-fitting lid with rim-lock design, making it very difficult to nearly impossible to remove, and with a sturdily attached, tight-fitting (but removable) clip-on cap, all of the same material as the bucket.

The opening under the cap is 100 mm \pm 5% large to allow for easier filling from hand pumps and cleaning of the bucket without removing the main lid.
