Emergency Water Testing Kit**Product Code :**  
WATER-SAN0052**Description :**

Emergency Water Testing Kit

**Technical Specification :**

This Emergency Water Testing Kit is composed of a Simple Chlorine/pH test kit for quick on-site visual measuring of residual chlorine and pH values in (drinking) water.

Supplied with additional reagents in 250 tablets pack for both parameters to compose a kit which provides for more than 250 tests each of FAC and PH.

The Pool tester has one colorimetric scale for pH and one scale for Chlorine on the same transparent plastic material block.

This Testing Kit is basically containing and referring to following material codes and specifications:

Pool Tester, visual, block type

DPD 1 (Free Chlorine) rapid dissolving tablets 250 pack

Phenol Red rapid dissolving tablets 250 pack

Measuring ranges:

For Chlorine from 0.1 to 3.0 mg/l (approximately)

For pH from 6.8 to 8.2
