

Product Name :
Infusion Pump

Product Code :
MED-DEV0009

Description :

Infusion Pump

Technical Specification :

Infusion pump, volumetric, portable, for IV fluids infusion, single channel

Peristaltic pump, continuous delivery

Suitable for rail and IV pole mount

Bolus program, range :100 – 900 ml/h

Air bubble detection; Occlusion detection

Battery autonomy: > 5 h (at 30 ml/h)

Integrated battery charger

Power requirements: 110 – 220 V / 50 – 60 Hz.

Power consumption: 25 W

Programmable infusion by volume, time and flow-rate

Volume limit range 1 – 9,999 ml, 1 ml step

Sturdy construction, splash- and shock-proof, plastic enclosure.

Open system, compatible with commercial infusion sets

Flow-rate range 1 – 1,200 (minimum guaranteed) ml/h, 1 ml/h step, accuracy $\pm 5\%$

Battery and AC powered, with automatic switch between modes and automatic recharge when connected to mains

Display and control panel with visualisation of all working parameters and system messages

Audio/visual alarms, with silencing feature, for: occlusion, air-in-line, door open, status and end of infusion/program, battery/power supply status and failure, system errors
