Labour and Delivery Bed

Technical Specification :

All sections fit with padded mattresses, entirely detachable from bed for easy cleaning.

Mattress covers removable via side zipper.

Leg section:

Mounted on 4 swivel castors, heavy duty, all 4 with brakes.

This section can be lowered and recesses entirely under the body section.

When fully extended, both the body and leg section align to perfectly flat surface.

Body section:

Mounted on 4 sturdy supports, all finished with height adjustable feet.

Padded knee crutches are height and width adjustable, set with robust clamps with heavy knob.

Fixing of the crutch holders is solid steel and welded to the frame of the bed.

High resistance to corrosion.

Frame: epoxy coated tubular steel.

Adjustable feet: rubber or nylon.

Caster frame/bracket: steel or nylon.

Caster brake: total-lock type.

Wheel bearing: sealed bearing in the swivel and the wheel.

Caster wheel: single wheel, mold-on type, non-hooded

Transfer bars connect all lower distal portions of the 4 supports, providing maximal structural strength.

Recession track and guiding wheel for the leg section are smoothly finished for easy in/out sliding

Mattress: high-density polyurethane foam, density 30 kg/m³.

Cover: plastic, flexible, highly tear resistant, anti-static, flame retardant, disinfectant- and liquid proof, washable.
