

Product Name :
Stability Chamber**Product Code :**
ALABS-A89-164**Description :****Stability Chamber**

offered find application in creating ideal conditions for Industrial component/product research as well as for Bio technical specification tests. Featuring use of accurate as well as reliable chamber for long term high temperature as well as RH testing applications, these are made available in temperature range of 10 c to 60 c with accuracy of ± 0.5 c. These also feature relative humidity range of 35% RH to 95% RH with accuracy of $\pm 3\%$ RH. Here, a positive vertical air circulation also helps in ensuring uniformity in temperature and RH.

Features :

- Creating ideal conditions for Industrial component / product research and Bio technical specification test
- Most accurate and reliable chamber for long term high temperature and RH testing
- Temp. range 10 c to 60 c with an accuracy ± 0.5 c. Relative humidity range 35% RH to 95% RH with an accuracy $\pm 3\%$ RH

- A positive vertical air circulation ensures temperature and RH uniformity
- Digitally set, temperature and Humidity controller with direct digital read out in temperature and percentage RH
- Low pressure Boiler to generate steam for chamber humidification. Well balanced refrigeration system
- Double walled construction inner chamber S. S. and outside of Mild steel beautifully powder coated
- The chamber is provided with modular removable shelves made of S. S. for complete flexibility in use
- A key lockable insulated door having positive door gasket seals doors perfectly
- Control panel mounted on the top of the unit
- It work on 230 volts A. C. only.
