

Product Name :
5 MHz Function Generator

Product Code :
ALABS-A93-003

Description :

5 MHz Function Generator

- Low distortion, high stability
- Linear and logarithmic sweep function
- Sweep time and width adjustable
- External voltage control frequency (VCF)
- Internal& external modulation AM/FM with modulation control
- Output signal compatible with TTL/CMOS
- Seven types of waveforms such as sine, square, triangle and ramp

- DC power output attenuation can be applied to main output signal

- Built-in frequency meter:0.1Hz-30Mhz
